

To the Members of the California Assembly:

I am returning Assembly Bill 3034 without my signature.

The Biotechnology Industry is a vital contributor to both California's business climate and our citizen's well-being. Not only does this industry provide good, high paying jobs in our communities, but it also contributes countless scientific advancements that enrich the lives of Californians as well as of the citizens of the world. This industry is at the forefront of cutting-edge technology, and I am proud to support its continuing presence within this state.

Unfortunately, I cannot support this legislation because it creates an unnecessary report developed at state expense.

Sincerely,

Arnold Schwarzenegger
